Election/Restrictions

1. Newly submitted claims 1-13 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the newly submitted claims deal with a different aspect of the application and present patentably distinct material such as a first chamber activating a first portion of said inactive blood component and stores coagulated blood containing a clot and thrombin as well as a means for mixing said autologous thrombin. The original claims were not searched with regards to these limitations, but instead were more drawn to the structure of the dual chamber cartridge and not the separating of coagulated blood and a clot.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-13 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. The amendment filed on 3/28/03 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because for the reasons stated above.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the

omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
